(54) Title: IMAGE PROCESSING METHOD AND IMAGE PROCESSING APPARATUS

(57) Abstract: An operation panel display device (304) presents the state of each virtual object to an observer on the basis of information about the state of each virtual object. An input device (303) or 3D pointing device (302) inputs an operation to change a desired one of the presented states. A computer (400) updates the information in accordance with the input operation.
